

## **Internship / graduation project UX Design at Inversable**

Are you a student specializing in UX Design and looking for a challenging internship or graduation project? Then we might be the right fit for you. Inversable is a young and fastly growing IT company with an enthusiastic team. We are located in Deventer, where we spend every day building innovative IT products that have an impact on society. We build apps for different sectors including energy, agriculture, industry and education. Take a look at our website [inversable.com](https://inversable.com) or the websites of our products [voorstroom.nl](https://voorstroom.nl) and [sen-app.nl](https://sen-app.nl).

### **What you will be doing**

As an intern or graduate at Inversable, you will work on one of our apps and make sure that it meets the needs of the user as best as possible. Together with the Tech Team you will look at ways to improve the app and you will make sure the client's needs are clear. You will work on your ideas in PenPot, show your prototypes to the Tech Team and client and create an optimal wireframe. Maybe it would be a good plan to plan a design workshop or go to a session with our UX Designer to learn how it's done. We are open to discuss all options with you!

### **Who we are looking for**

You will get the chance to do meaningful work at Inversable. That's why we are looking for someone who is able to work independently and loves a challenge. You will get a lot of freedom to develop yourself and your skills and of course you can count on excellent guidance.

We are looking for someone with the following skills:

- Focus on user centered design
- Proficient with design programs and eager to learn more
- Interest in setting up a design system
- Attention to detail but also the ability to have a bird's eye view

### **Internships / graduating at Inversable**

During your internship or graduation project at Inversable, you will be part of the content team and join us in thinking about how we can best develop our strategies. During an internship, the focus will be on working along with us. Although we do always appreciate a proactive attitude and new ideas. During a graduation project, the focus will be on executing independent research or product development. Of course you can count on guidance from our side.

Many students have interned or graduated at Inversable, because we like working together with students. We offer a lot of freedom to shape your internship or graduation project so it suits you best and will guide you through it. We really want you to be able to learn something and that your contribution will be valuable to our team. Students will receive a compensation of €300 a month. Are you interested? Please get in touch with [info@inversable.com](mailto:info@inversable.com)

Location: Zutphenseweg 6b, 7418 AJ Deventer
